

BD LIVING

A division of Barratt Developments PLC

www.talbotts.co.uk

BD Living, based in Leicestershire, is the bedroom manufacturing division of Barratt Developments PLC. BD Living create stunning bedroom furniture solutions for new Barratt Homes at their 25,000 square foot factory in Leicestershire, employing approximately 65 members of staff.

Previously, BD Living were disposing of 270 tonnes of wood waste each year and their factory was heated by overhead radiant gas fired heaters. They wanted to reduce the cost, both financial and environmental, of disposing of their wood waste and decided to invest in a Talbott MWE 300KW biomass boiler and Untha LR700 shredder in Summer 2017, with pipe work distribution supplied by Air Plants Heating Ltd. The system is eligible for quarterly support payments from the Renewable Heat Incentive scheme and has been fully accredited, receiving payments since installation.

| | |
|--|------------------------|
| Expected payback period | 2.5 years |
| Tonnes of wood waste saved from landfill | 270 tonnes/year |
| Renewable Heat Incentive Accredited | ✓ |

I would not hesitate to recommend Talbott's. Their knowledge of the product is extremely reassuring and the installation ran like clockwork from start to finish, indications are that the projected payback period will easily be met.

- Dean Walker, Buyer, BD Living – Division of Barratt Developments plc.
